

## Red Team Alliance's Three-Day Fundamentals of Disguise

This unique three day course is one of the first of its kind available to the public. The skills taught in this course are invaluable to pen testers, undercover operators, and private investigators. All techniques are taught by professionals skilled in the clandestine arts of disguise and appearance alteration. Students will learn how to develop pretexts and cultivate appearances that will be successful in hiding their identities. From there they will learn types of disguises and how to set up their subjects for deception.

All students will participate in exercises designed to teach them how to successfully alter their physical appearance, hair, age, height, weight, even gender(optional). Fabrication of scars, injuries, body art, and body modifications will also be covered in great detail. A professional Hollywood and theatrical makeup artist spends a full day with the class to teach these core skills and nearly a full day is allocated to practice and perfect these skills.

**Cost:** \$750
